

360 Degree Feedback & Performance Management Systems (Vol I)

In the changed business scenario where organizations are required to compete globally, benchmarks have become global. Organizational survival and excellence require not only meeting but setting global standards. Speed of change becomes a critical variable. Organizations have to react fast, learn from their experiences and aim towards achieving world class excellence through constant learning and renewal. 360 degree feedback has been found to be one such facilitator of change at the individual level.

This book has a comprehensive coverage of linking 360 degree feedback with performance management and pay strategies. It provides direction to all those who have a desire to discover and develop themselves or their organizations as a whole
