

CULTURE-THE KEY TO A STRONG FOUNDATION

“Culture is like the wind. It is invisible; yet its effect can be seen and felt.”

Bryan Walker, Partner and Managing Director, Ideo

An organization's culture is defined by the behaviors exhibited by all its employees. The most successful companies foster cultures that allow their employees to thrive and grow.

Culture consists of the values and beliefs that are articulated by the leaders and then communicated to all. It is a known fact that the culture sets the context for everything that the organization does. Leaders in successful companies live the organizational culture every day and go out of their way to communicate their cultural identities to employees and prospective new hires alike. They are clear about their values and how those values define their organization.

Culture varies from organization to organization since there is no “one-size-fits-all” that can meet the differing needs of divergent industries. Reinforcement of the organizational culture happens through various methods, which establish employee perceptions, behaviors and understanding.

This workshop is an opportunity for participants to deep dive into the significance of culture from an organizational perspective. It will provide an avenue to learn about the tools that can be used for identifying the type of culture prevalent in their own organization and explore strategies to build the desired culture.

WORKSHOP METHODOLOGY

- Case studies
- Videos and presentations
- Mini project to be undertaken by the participants
- Questionnaires

WHO WILL BENEFIT MOST FROM THE WORKSHOP?

CEOs, CXOs, CHROs, HRBPs, OD Professionals, Top and Middle Management Professionals
